London  
Cressingham Gardens  
Public Shelters

## SKILLS

Auto Cad, Photoshop, Sketch Up, Indesign, Revit, Model Making, Corel draw, Creo Elements, Pro Desktop, Microsoft Suite

## PERSONAL PROFILE

Highly self-motivated, patient and confident individual. I can work effectively individually or within a group. I enjoy working with new people, communicating ideas and Learning new skills from each-other. I love designing!! I take every project on with a positive attitude to learn new ideas and to be more creative with every design. During my spare time I love travelling, playing sports and hiking. My enthusiasm for designing has led me to design wedding cards, business cards and small family projects such as landscaping or even bathroom interiors.

## RECENT PROJECT'S

### A & N Architects

My current role involves working closely with the director of the company in a fast paced practise working on a variety of projects from small extensions to large blocks of flats producing existing drawings, feasibility studies and building control documents.

### Health Station Year 3 - Term 1

A Health Station that sat with minimal placement over the river soar in Leicester. This design was inspired by bridge technology.

### Year 3 Final Project

Vertical High-street - Social Housing project in London working with the community in order to develop a design to save the Central Hill Estate.

Bridge Inspired  
Health Station
